proline®
PVC Systems for Windows and Doors
PROSLIDE-60
60 MM

Product Description

Narrow frame and sash profiles provide a larger glass area, providing a better view of the outdoors. This is especially advantageous for places with views or in need of light. Sliding systems, on the other hand, increase usability in narrow spaces as they do not take up space when opening, thus saving space.

1. 60 mm profile width
2. Two type sash profile W: 38mm H:67 mm and W:38mm H:80mm
3. Inside and outside flynet application options.
4. decorative glazing bead with PCE gasket
5. Slope which provides maximum water disposal
6. External wall thickness in European Standarts
7. Between 4 mm - 16 mm glass application possibility
8. Unlimited lamination color option
